

*3 across and 3 down totaling 9 blocks is a wallhanging (loops provided) or lap quilt and is approximately 60" wide x 60" long = \$150

* 3 across and 4 down totaling 12 blocks is a Twin sized quilt and is approximately 60" wide x 80" long = \$250

* 3 across and 5 down totaling 15 blocks is a Twin sized quilt and is approximately 60" x 90" long = \$275

* 4 across and 4 down totally 16 blocks is a Twin sized quilt and is approximately 72" x 80" long = \$300

* 4 across and 5 down totaling 20 blocks is a Full at 80" x 90" = \$350

* 5 across and 5 or 6 down totaling 25 -30 blocks is a Full size at approximately 85" x 100" = \$375 - \$400.

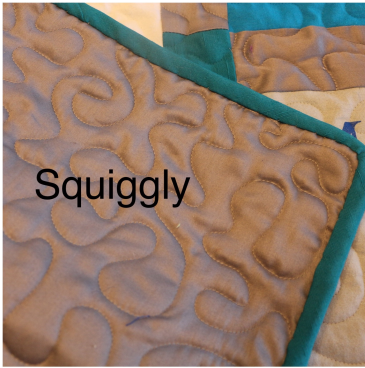

* 5 across and 6 down totaling 30 blocks is a typically a Queen size at approximately 90" x 100" = \$400 - \$500.

King Size quilts are typically over 30 t-shirts and are limited to 108" across. The price starts at \$600 but can be more depending on the number of shirts involved.

Most quilts requested have sashing (the strips of fabric between the t-shirt blocks). Customers can choose any colors of solid color fabric for the sashing. Additional charges may apply if the sashing is a print (such as polka dots, gingham, stripes, floral) I use sashing to better square up the overall quilt, add a dash of design and for the overall quality of the quilt.

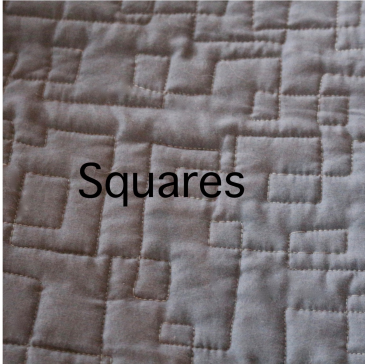

Cotton fabrics are used for the sashing, backing and binding. Batting is an 80% cotton, 20% polyester blend. If you want a special backing fabric like Minky or something specific - customer can provide. But this will not affect the overall price.

Squiggly

LOOPY

Squares

Meandering Grid

The quilting patterns are either a curvy grid design, a free-hand curvy design similar to a jig-saw puzzle pattern or a free-hand loopy design (similar to doodling we all did as kids). If something specific is desired, I can work with my customers to give them what they want, but there will be additional charges applied for more elaborate designs.
